"All department commanders have been directed to send all other National Guard troops in their respective departments to border as soon as they are equipped and transportation can be obtained.'

"Commanding General, Eastern Department, has been directed to send Kentucky troops to the border soon as they have been equipped and transportation can be obtained, and to see that special attention is given to get Vermont troops as soon

Associated Press Dispatch.

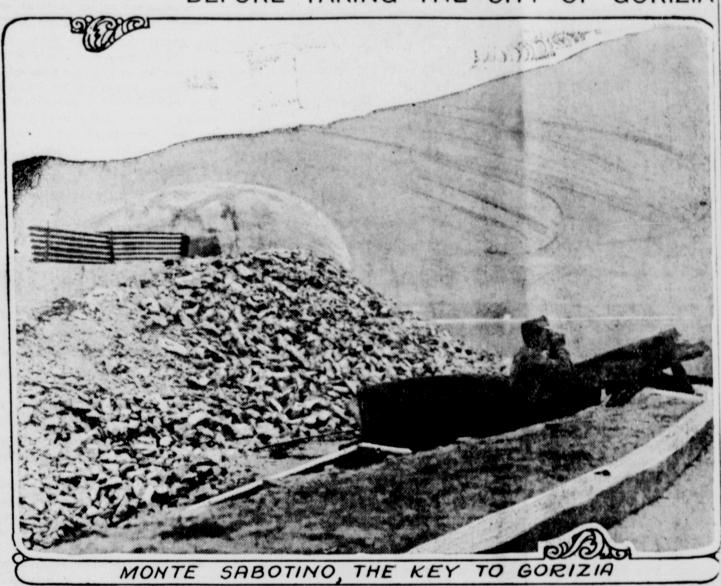

Camp Willis, August 12 .-Major Robert W. Mearns, senior federal mustering officer today said he had been advised of the War Department's intention of sending the Ohio National Guardsmen encamped here to the Mexican border and stated he would "not hold them a minute."

Major Mearns indicated the 9,000 militiamen here are equipped and reasonably ready for active service.

He said the first troops would probably not leave camp before Monday.

INTERESTING INFORMATION REGARDING FIRE INSURANCE

Well Known Financial Journal Shows How Ohio Is Taking Her Proper Place in This Big Business.

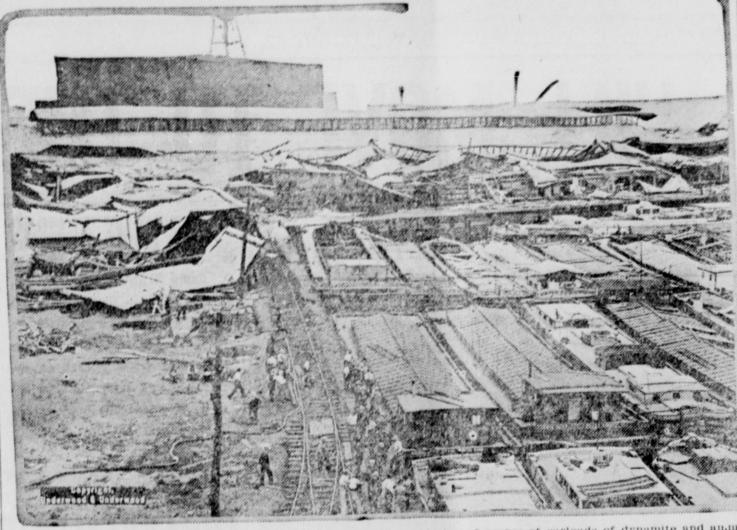

The article below appeared in "Finance," the foremost financial Journal published in Ohio, February C, 1916 and should be read by everybody who carries a fire insurance policy.

The Threatened Strike

Later developments in the controversy between the railroad companies and their four hundred thousand employees Just thinking of it brings a smilea-bouncing on the seat, While Father chuckles low, and will be reached peaceably—an agreement satisfactory to both sides-and the threatened strike, with all its attendant loss and suffering averted.

It seems sometimes that there is a little too much diplomsev used in these controversies between employers and employees. In fact there is enough of diplomacy in evidence in Just to hear the jolly music of that most of of the negotiations to justify the suspicion that at least one of the parties, possibly both, are not acting in entire good faith and that their contentions may lack the merit to through a little lane I know! insure ratification by an impartial mediator.

Just what the federal board of Mediation and Conciliation is, other than a creation of law with a very formidable sounding title is not clear, to most folks, if it is powerless to act with authority and finality in crises like the present.

In refusing to submit their contentions to just arbitration the four hundred thousand employees have weakened Saturday and probably Sunday; not their cause in public esteem.

Perhaps they have a real or fancied reason for declining. day and Sunday; not much change Perhaps the offer of the railroad companies to arbitrate has a "string to it" which it is not necessary for the employees to hew in order to have the proof of the pudding.

But even if that be true it would seem that the employees ould safely trust their cause to their own government for change in temperature.

There still is strong hope that all may come out right and the calamity of a general strike on the railroads avoided, but the surplus of diplomacy is not encouraging.

Progress of the War

On all fronts the opponents of the Teutonic allies con- sets, 7:02; moon s mue to make advances and the first ten days of August close with a decided balance against Germany, Austria and Turkey.

Germany, while making no progress and forced to fight on the defensive, save at Verdun, has done much better in the terrible task of checking the British and French in the Somme

The great steel traps which the genius of Kitchener, the patience and determination of the British, the brilliancy of the French and the tremendous resources of Russia, have placed about the Central powers, are snapping menacingly.

Unless Germany can soon devise some plan and put it into execution to check the Somme advance and free herself from the burden of the Verdun failure and straighten up and strengthen the lines in Galicia, the fourth year of the war will likely mark its close.

At this time armies cannot be reformed and new armies raised. Every nook and corner of the Central empires have been taken to capacity to furnish fighting men.

The pace has been a cruel one and, it seems that vast resources of the Entente allies are beginning to force down the balance on their side.

ludge Newby Defeated

Nearly every voter in Fayette county regrets that later figures giving the results of the Republican primary elections, indicate with probable certainty that Judge Cyrus Newby of Hillsboro has been defeated for the nomination for the Su-Preme Court.

Selfish impulses would probably warrant satisfaction with hat result because it means that Judge Newby will still preside in the courts of this judicial district where his great ability has proven so valuable to litigants, but we do not feel that way about it.

Judge Newby has given to the people of this sub-division many years of valuable conscientious service and was, with all the respect to the nominees, entitled to be promoted.

His service merits the honor which would attach to such age in whole or in part at any promotion.

If the people of Ohio, generally, knew Judge Newby as the people of this section of the state know him, he would have been nominated at Tuesday's primary election.

Judge Newby's loss is the gain of the people of this dis-

During one of the periods of her economical living streaks Mrs. Hetty Green was staying at a moderate priced boarding house, where a jobless young stenographer came to know her. New York, Aug. 12.-Peaceful solution of the railway controversy apparently rests upon the possibility that the men might be induced to accept a new form of arbitration

The trainmen's chief objection to arbitration has been lack of represent HOSTESS' ANSWER tation upon any of the boards provided under existing statutes.

The members of the federal board of mediation and conciliation. while declining to discuss the situation, are of the size of the board provided for Washington approval of this plan was reported to have been responsible for an apparent suspension of the media-

If this suggestion is not accepted, the mediation board will have failed in its efforts and the only recourse will be an appeal to President Wilson to use his influence to avert a strike. It was pointed out, however, that the suggestion and recommendation.

Leaders of the brotherhoods have declared that they would not consider arbitration under the Newlands act as it now stands. The railroads have rejected the men's demands and have stood out firmly for arbitration. The men have served notice that, rather than arbitrate, they will strike. A Beautiful Axminster Rug Given Absolutely Free to Every Purchaser of a

King Clermont All Fuel Base Heater During Our Special Sale and Demonstration, Which Takes Place at Our Store

August 15 to August 18

One of these bandsome Axminster Rugs, 72 inches long and 36 inches wide, will be given ABSOLUTELY FREE by The Gem City Stove Company, of Davton, Ohio. These rugs are made of only the best material and manufactured by one of the oldest and leading rug makers of this country and would cost you \$6 00 if bought at any store in this county.

The pattern is very handsome and pleasing and the most fastidious housewife will be more than delighted with this gift.

During this sale the manufacturers will have an expert stove man to operate the King Clermont and show you how it gets all the heat out of the fu-l. He will literally take this wonderful stove apart and explain its construction. The King Clermont is the most powerful heating stove made and is the only heater that will burn hard coal, soft coal, slack, coke, wood knots or anything burnable with marvelous results, and best of all, the price of the King Clermont is within the reach of everyone.

The fire travels three times as far as it does in the ordinary heating stove before reaching the stove pipe, so that none of the heat is wasted up the chimney as is the case with other stoves.

The Big Warin Air Flue takes in the cool air at the bottom of the stove and discharges it into the room at the top of the stove-thoroughly heated. In this way the King Clermont keeps all the air in the room in constant circulation, heating it over and over. That's why the corners and floors are always warm, even in zero weather.

If you want to save stove money and get the best heating stove made, take advantage of this phenominal offer. Everybody welcome. Whether you intend to buy a stove or not, come and see the stove in actual operation. Find out about stove construction and when you do get ready you'll be able to select the stove that will save you time, work and fuel cost.

Don't Forget the Dates,

August 15th, 16th, 17th and 18th.

And remember the rug is only given with stoves purchased during this sale and that any stove contracted for will be delivered any time this fall or winter.

The Democratic caucus continued consideration of committee amendments and had before it the proposal agreed on by the committee striking out the specific excise taxes on munition manufacturers and substituting a 10 per cent net profit tax on the profits of all manufacturers of munitions and wares that enter into munitions.

The committee adopted an amendment increasing the salaries of members of the proposed tariff board from \$7,500 to \$10,000 each.

As revised by the committee the bill would yield an estimated annual revenue of \$198,000,000 as against \$210,-000,000 as it passed the house. The net decrease is due to the change in the munitions tax, the house method providing for \$72,000,000 and the senate plan \$45.000,000.

SYNOPSIS.

Pierpont Stafford, banker and railroad magnate, with his sixteen-year-old daughter, Gloria, is wintering at Palm Beach, Gloria is a vivacious, but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. She steals from her room at night and in an auto plunges into the surf where she leaves the car. Becoming lost in the everglades she falls into the hands of the Seminole Indians. She is rescued and returned to her father who had offered a reward for her return.

In fingers twitched to clutch the fortune, but his brain advised him to play for higher stakes. He put away the temptation with a proud smile.

"It is reward enough to have been able to be of service to Miss Stafford."

If Gloria had not adored him before, that chivalrous speech would have won her. It quite disarmed Pierpont. With his check book ruled out, his best weapon was gone. But he blustered all the harder. "My daugh-

Chicago, August 12. - Reports that a federal investigation of an alleged attempt to manipulate the wheat market and raise prices had been under way for some time led to a statement on the subject early teday by United States District Attorney Charles F. Clyne.

He said that whatever action the By Associated Press Dispatch. government might be taking in the matter would be kept secret.

Fifty Thousand Without Milk.

By Associated Press Dispatch.

Cleveland, O., August 12 .- Cleveland's milk strike grew more serious today when strike leaders announced that they would attempt to prevent the sale of milk at distributing stations and would try to shut off sales of every kind except for babies and invalids.

The additions of the drivers of the Schneider-Becker Company to strikers of the Telling-Belle Vernon Company last night left 150,000 more Clevelanders without milk today, making a total of 450,000, or 60 per cent of the city, affected.

edy of England is a charge of bribery against a king, George III., which gave the gentle art of caricature an opportunity such as had never come to it before and showed the power that caricature could wield upon a people.

At a levee of the king held on June 14, 1786, a very valuable diamond of unusual size and brilliancy was presented to George III., ostensibly as a gift from the nizam or native ruler of Deccan, India.

At the period when this magnificent peace offering was given to the king the impeachment of Warren Hastings was advancing in parliament, and it was current rumor that this and several lesser diamonds were the purchase price of Hastings' acquittal. Caricatures appeared in the windows

The Threatened Strike

Later developments in the controversy between the railmad companies and their four hundred thousand employees Just thinking of it brings a smilea-bouncing on the seat, While Father chuckles low, and will be reached peaceably—an agreement satisfactory to both sides-and the threatened strike, with all its attendant loss and suffering averted.

It seems sometimes that there is a little too much diplommer used in these controversies between employers and employees. In fact there is enough of diplomacy in evidence in Just to hear the jolly music of that most of of the negotiations to justify the suspicion that at least one of the parties, possibly both, are not acting in entire good faith and that their contentions may lack the merit to through a little lane I know! insure ratification by an impartial mediator.

Just what the federal board of Mediation and Conciliation is, other than a creation of law with a very formidable sounding title is not clear, to most folks, if it is powerless to act with authority and finality in crises like the present.

In refusing to submit their contentions to just arbitration the four hundred thousand employees have weakened Saturday and probably Sunday; not their cause in public esteem.

Perhaps they have a real or fancied reason for declining. day and Sunday; not much change Perhaps the offer of the railroad companies to arbitrate has a "string to it" which it is not necessary for the employees to chew in order to have the proof of the pudding.

But even if that be true it would seem that the employees could safely trust their cause to their own government for change in temperature. adjustment.

There still is strong hope that all may come out right and the calamity of a general strike on the railroads avoided, but the surplus of diplomacy is not encouraging.

Germany, while making no progress and forced to fight on the defensive, save at Verdun, has done much better in the terrible task of checking the British and French in the Somme

The great steel traps which the genius of Kitchener, the patience and determination of the British, the brilliancy of the French and the tremendous resources of Russia, have placed about the Central powers, are snapping menacingly.

Unless Germany can soon devise some plan and put it not earning enough to pay so much into execution to check the Somme advance and free herself from the burden of the Verdun failure and straighten up and strengthen the lines in Galicia, the fourth year of the war and sewing rooms. Make your own will likely mark its close.

At this time armies cannot be reformed and new armies \$6 out of your \$12. Do not go out raised. Every nook and corner of the Central empires have been taken to capacity to furnish fighting men.

Judge Newby Defeated

Nearly every voter in Fayette county regrets that later figures giving the results of the Republican primary elections, Indicate with probable certainty that Judge Cyrus Newby of Hillsboro has been defeated for the nomination for the Su-Preme Court.

Selfish impulses would probably warrant satisfaction with that result because it means that Judge Newby will still preside in the courts of this judicial district where his great ability has proven so valuable to litigants, but we do not feel that way about it.

Judge Newby has given to the people of this sub-division many years of valuable conscientious service and was, with all due respect to the nominees, entitled to be promoted.

His service merits the honor which would attach to such age in whole or in part at any promotion.

If the people of Ohio, generally, knew Judge Newby as the people of this section of the state know him, he would

have been nominated at Tuesday's primary election. Judge Newby's loss is the gain of the people of this dis-

Hard Words For the High Hat. The case against the "topper" was

summed up many years ago by the famous Punch editor, Mark Lemon. "It is hot in summer," he said; "it is not warm in winter. It does not shade us from the sun; it does not shelter us from the rain. It is ugly and expensive. You cannot wear it in a railway carriage. It is always in your way in a drawing room. If you sit ob it you crush it, yet it will not save your skull in a fall. It will not go into a portmanteau; it is too hard to roll up, too soft to stand upon. rusts with the sca nir; it spots with the rain. They Suggest a New Form of Arbitration.

HAVEN'T ABANDONED HOPE

Eoch of the Four Railroad Brotherhoods Would Have a Representa tive On the Arbitration Board, Un der the Mediators' Plan-Appeal to Be Made to Wilson If Proposition In Rejected.

New York, Aug. 12.-Peaceful solution of the railway controversy apparently rests upon the possibility that the men might be induced to accept a new form of arbitration.

The trainmen's chief objection to arbitration has been lack of represen- HOSTESS' ANSWER tation upon any o the boards provided under existing statutes. The members of the federal board

of mediation and conciliation, while declining to discuss the situation, are of the size of the board provided for reported to have been responsible for an apparent suspension of the mediators' activities.

If this suggestion is not accepted, the mediation board will have failed in its efforts and the only recourse will be an appeal to President Wilson to use his influence to avert a strike It was pointed out, however, that the president's powers will be limited to suggestion and recommendation.

Leaders of the brotherhoods have declared that they would not consider | *101..7:41 a. m. | \$104.10:42 a. m. arbitration under the Newlands act as it now stands. The railroads have rejected the men's demands and have stood out firmly for arbitration. The men have served notice that, rather than arbitrate, they will strike. A Beautiful Axminster Rug Given Absolutely Free to Every Purchaser of a

King Clermont All Fuel Base Heater During Our Special Sale and Demonstration, Which Takes Place at Our Store August 15 to August 18

One of these bandsome Axminster Rugs, 72 inches long and 36 inches wide, will be given ABSOLUTELY FREE by The Gem City Stove Company, of Dayton, Ohio. These rugs are made of only the best material and manufactured by one of the oldest and leading rug makers of this country and would cost you \$6 00 if bought at any store in this county.

The pattern is very handsome and pleasing and the most fastidious housewife will be more than delighted with this gift. During this sale the manufacturers will have an expert stove man to operate the

King Clermont and show you how it gets all the heat out of the fuel. He will literally take this wonderful stove apart and explain its construction. The King Clermont is the most powerful heating stove made and is the only heater that will burn hard coal, soft coal, slack, coke, wood knots or anything burnable with marvelous results, and best of all, the price of the King Clermont is within the reach of everyone.

The fire travels three times as far as it does in the ordinary heating stove before reaching the stove pipe, so that none of the heat is wasted up the chimney as is the case with other stoves.

The Big Warin Air Flue takes in the cool air at the bottom of the stove and discharges it into the room at the top of the stove—thoroughly heated. In this way the King Clermont keeps all the air in the room in constant circulation, heating it over and over. That's why the corners and floors are always warm, even in zero weather.

If you want to save stove money and get the best heating stove made, take advantage of this phenominal offer. Everybody welcome. Whether you intend to buy a stove or not, come and see the stove in actual operation. Find out about stove construction and when you do get ready you'll be able to select the stove that will save you time, work and fuel cost.

Don't Forget the Dates,

August 15th, 16th, 17th and 18th.

And remember the rug is only given with stoves purchased during this sale and that any stove contracted for will be delivered any time this fall or winter.

Had the committee declined to yield on the amendment the Democratic Frank W. Thomas of Bowling Green senate caucus probably would have reversed it. The amendment increasing the surtax on incomes exceeding \$2,-000,000 from 10 to 13 per cent is retained and there is a probability that further increases in the surtaxes will be made in caucus.

The Democratic caucus continued consideration of committee amendments and had before it the proposal agreed on by the committee striking out the specific excise taxes on munition manufacturers and substituting a 10 per cent net profit tax on the profits of all manufacturers of munitions and wares that enter into mu-

The committee adopted an amendment increasing the salaries of members of the proposed tariff board from \$7,500 to \$10,000 each.

As revised by the committee the bill would yield an estimated annual rev enue of \$198,000,000 as against \$210,-000,000 as it passed the house. The net decrease is due to the change in the munitions tax, the house method providing for \$72,000,000 and the senate plan \$45,000,000.

SYNOPSIS

Pierpont Stafford, banker and railroad magnate, with his sixteen-year-old daughter, Gloria, is wintering at Palm Beach, Gloria is a vivacious, but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. She steals from her room at night and in an auto plunges into the surf where she leaves the car. Becoming lost in the everglades she falls into the hands of the Seminole Indians. She is rescued and returned to her father who had offered a reward for her return.

Fifty Thousand Clevelanders Arei Without Milk.

By Associated Press Dispatch.

Cleveland, O., August 12.-Cleveland's milk strike grew more serious today when strike leaders announced that they would attempt to prevent the sale of milk at distributing stations and would try to shut off sales of every kind except for babies and invalids.

The additions of the drivers of the Schneider-Becker Company to Company last night left 150,000 more Clevelanders without milk to day, making a total of 450,000, or 60 per cent of the city, affected.

The session was the result of information communicated to Mayor Oster, by someone whose identity he did not disclose, that Mr. and Mrs. Hugh C: Weir, of Long Island, N. Y., were on their way to this city and had with them their adopted flive year old son John Edgar, whom, it was alleged, had been close to the disease on Long Island. Dr. and Mrs. E. C. Hamilton, Mrs.

telegram a few days ago stated that price of Hastings' acquittal. all were well and had established a quarantine in their immediate neighborhood to guard still further

According to the information given out by Mayor Oster, Mr. and his mouth open and Hastings throwing Mrs. Weir were expected on the afternoon train, and the Board of with an automobile and take them to some isolated point outside the Keep them white with Red Cross city where a tent would be provided for them thus avoiding all danger of the disease getting a foothold

here and to avoid any uneasiness among citizens.

There seems nothing as yet authentic about the arrival of the Weirs, nor as to the exposure of the child.

THE HASTINGS DIAMOND.

It Involved a King of England In a Bribery Scandal.

Nearly every great diamond has a history. These histories are always romantic, embodying numerous adventures, some of which are tragic.

In the history of the Hastings tragedy of England is a charge of bribery against a king, George III., which gave the gentle art of caricature an opportunity such as had never come to it before and showed the power that caricature could wield upon a people.

At a levee of the king held on June 14, 1786, a very valuable diamond of unusual size and brilliancy was presented to George III., ostensibly as a gift from the nizam or native ruler of Decean, India.

At the period when this magnificent peace offering was given to the king the impeachment of Warren Hastings was advancing in parliament, and it was current rumor that this and several lesser diamond's were the purchase

Caricatures appeared in the windows of the printshops. One represented Hastings wheeling the king to market in a barrow and saying, "What a man buys he may sell again." In another the king was exhibited kneeling, with diamonds into it.

An Italian juggler then in London pretending to eat paving stones placarded the walls with bills describing himself as "The Greatest Stone Exter." Improving upon this, the caricaturists represented the king in the character of the Greatest Stone Eater .- Indianapolis News.
